

## KECB Newsletter-October, 2023

**Litter**-10 reports of littering have been made through September 24, 2023. There may be more once video has been reviewed. The Broad River Cleanup/River's Alive on September 9<sup>th</sup> yielded 325 pounds of trash and 12 tires. Twelve volunteers spent 5 hours each on this event. The Bowman Recycling Event was another form of litter prevention, giving residents a way to dispose of unwanted items properly. 18 tires were brought in and more than 20 TV's and computer monitors were turned in. Our Mid-Week/Mid-Month cleanup found us on Old Middleton Rd. KECB was joined by representatives of our County Road Department and Allen Hulme our County Manager. Together we were able to clean up a section of this road, picking up more than a hundred pounds of trash. In each of these events, KECB would not be able to do this without the help of volunteers-which equals everyone participating. (The part-time position for KECB is for planning, presenting and paperwork.)

**Beautification**- It has been another dry month. Routine maintenance was done in all areas.

**Membership**- Hooray! We are currently at 104 members! We have reserved the Civic Center for our **Annual Dinner Meeting on Thursday, October 12!** This is one of the perks of being a member! Please mark your calendar now for a great dinner meeting. An invitation and several reminders were sent out. We are looking forward to seeing you!

**Education**- Our first ELEVATE meeting with 4H happened on September 14. More than 50 students showed up! Luckily, there were plenty of activities surrounding the topic of Apples to keep them busy for a couple of hours. We were pleased to see that some of the topics we covered last year with this group hit home-see the photos in the next section.

**Coming up in October we have-**

**We welcome any and all volunteers!**

**October 7**-Lions Club pickup-Petersburg Rd.

**October 12**- KECB Annual Dinner for members

**October 16**- 4H ELEVATE meeting

Bowman Recycling Event
